In case you have opted to revive your policy, all the benefits will be reinstated. In addition, on revival of a Reduced Paid-Up policy, the difference between the Reduced Paid-Up benefits already paid out during the revival period and the original benefits payable will also be paid as a lump-sum amount. If you have not revived your policy during the revival period, it will continue in that mode until death or surrender, whichever is earlier.

13) Revival

A Lapsed / Reduced Paid Up policy can be revived within a maximum period of five policy years or outstanding premium payment term (whichever is lower), from the due date of the first unpaid premium by paying outstanding premium along with interest. On revival, all benefits under the policy shall be reinstated on revival of the policy.

In case you have not revived a lapsed policy during the revival period, the policy shall be terminated without paying any benefits. The loan along with the accrued interest must be paid back before the end of Deferment Period. At any point in time, during the Deferment Period if the outstanding loan amount along with accrued interest rate becomes greater than the Surrender Value, the policy shall be foreclosed and no further benefits shall be payable.

At the end of the Deferment Period, if the surrender value exceeds the outstanding loan amount plus accrued interest, such excess shall be paid to the Policyholder and the policy shall be terminated. This is only applicable in case the loan has not been repaid along with interest rate by the end of deferment period. Any benefits payable will be first adjusted against the outstanding loan amount plus accrued interest if not already paid by the policyholder.
